Minimal Requirements for final paper.

Here is the task. You write a paper that: state's a problem, provides a solution and justifies the solution.

1. It must be typed. You may draw in diagrams or special symbols but all other leeters must be typed.
2. The problem must be an extension of a previous problem not the same problem.
3. Due May 1st by 11:00pm.
4. Must be written for your Dear Aunt Sally.
    a. Has a title.
    b. Clearly State Your Question
    c. Do not assume that the reader has prior knowledge of the problem.
    d. Calling a triangle the simplex two dimensional closed curve shape composed of line segments does not get more points than saying "triangle." Formal math language is used throughout the solution to share and clarify ideas.

5. Problem must be cleared through me first.
